

## Clinton County PA

# Coronavirus Vaccine Information

Version 2021.01

**Please use this document as a reference and guide for informational purposes regarding COVID 19 vaccines**

Information is always changing. We will update this document when able. For more information regarding vaccinations in Pennsylvania, please visit the CDC portal [here](#).

### VACCINE INFORMATION

Information on the Phase Eligibility for vaccination in Pennsylvania as recommended by the Center for Disease Control (CDC) and currently followed by the Pennsylvania Department of Health. Also, please understand the vaccines are currently in very limited supply. You may have to be patient, yet persistent in your registration attempts.

Pennsylvania is currently vaccinating those individuals meeting the criteria in PHASE 1A.

Phase 1A is the first vaccine distribution step. The vaccine is currently being distributed to:

- Long-term care facility residents
- Health care personnel including, but not limited to:
  - Emergency medical service personnel
  - Nurses
  - Nursing assistants
  - Physicians
  - Dentists
  - Dental hygienists
  - Chiropractors

- Therapists
- Phlebotomists
- Pharmacists
- Technicians
- Pharmacy technicians
- Health professions students and trainees
- Direct support professionals
- Clinical personnel in school settings or correctional facilities
- Contractual HCP not directly employed by the health care facility
- Persons not directly involved in patient care but potentially exposed to infectious material that can transmit disease among or from health care personnel and patients
- Persons ages 65 and older
- Persons ages 16-64 with high-risk conditions:
  - Cancer
  - Chronic kidney disease
  - COPD
  - Down Syndrome
  - Heart conditions, such as heart failure, coronary artery disease, or cardiomyopathies
  - Immunocompromised state (weakened immune system) from solid organ transplant or from blood or bone marrow transplant, immune deficiencies, HIV, use of corticosteroids, or use of other immune weakening medicines
  - Obesity (body mass index [BMI] of 30 kg/m<sup>2</sup> or higher but < 40 kg/m<sup>2</sup>)
  - Severe Obesity (BMI ≥ 40 kg/m<sup>2</sup>)
  - Pregnancy
  - Sickle cell disease
  - Smoking
  - Type 2 diabetes mellitus
