

Name: Arrowwood Viburnum *Viburnum dentatum*

Phonetic Spelling: vi-BER-num

Description: One of the more popular spring-flowering shrubs are the viburnums. But what to choose as there are over 30 different species of viburnums that landscapers can use in Pennsylvania's three USDA (U.S. Department of Agriculture) Plant Hardiness Zones (5-7).

Height: 10-15 feet

Bloom Color: White with red blotches.

Bloom Season: Early spring.

Sun: Performs best in sunny areas.

Soil: Thrives in soil that is moist but drains well and is pH adaptable.

Pollinators:

Pests:

Cultivation & Management:
