

Clinton County Planning Commission January 16, 2024 - 7:00 PM

Piper Building, First Floor Meeting Room 2 Piper Way, Lock Haven, PA 17745

Meeting called by: Steve Gibson, Director/Engineer

Meeting Type: Regular monthly meeting

AGENDA

CALL TO ORDER

REORGANIZATION OF PLANNING COMMISSION

- Election of Officers
- Meeting Dates

APPROVAL OF MINUTES - Exhibit 1

• November 21, 2023

STAFF REPORTS – Exhibit 2

PUBLIC COMMENTS

OLD BUSINESS – Exhibit 3

- 2023 Annual Report
- Discussion of Land Development Deficiencies

NEW BUSINESS – Exhibit 4

- Land Development B&B Medical and Dental Office, Lock Haven
- Land Development Nittany Minute Mart, Woodward Township
 - Specific comments on PennDOT Permit
- Land Development Mount McKinley Tank Project, Dunnstable Township
- Pine Creek Zoning Ordinance Solicitation of Comments

CORRESPONDENCE – Exhibit 5

• A list of correspondence from the previous month.

ADJOURNMENT

2024 ELECTION OF OFFICERS

The 2023 slate of officers was as follows: Chairman: Terry Murty Vice Chairman: Dave Calhoun Secretary: Larry Sheats The Chairman will entertain nominations for the 2024 slate of officers. Nominations: Approval of Nominees:

Proposed Meeting Dates:

- January 16, 2024
- February 20, 2024
- March 19, 2024
- April 16, 2024
- May 21, 2024
- June 18, 2024
- July 16, 2024
- August 20, 2024
- September 17, 2024
- October 15, 2024
- November 19, 2024
- December if Needed

EXHIBIT 1 MEETING MINUTES

CLINTON COUNTY PLANNING COMMISSION

Meeting Minutes November 21, 2023

PRESENT: Terry Murty, Roger Hoy, Reza Lofti, Ryan Graw, Dave Calhoun, Richard Bowman, Melvin Coakley, John Dotterer

EXCUSED: Larry Sheats

GUESTS: Lance Bowman

PLANNING STAFF: Steve Gibson

CALL TO ORDER: Chairman Murty called the meeting to order at 7:00 PM.

APPROVAL OF MINUTES

• Melvin Coakley moved and Dave Calhoun seconded, a motion to approve the minutes of the previous meeting, as submitted. All were in favor and the motion carried.

PUBLIC COMMENTS: None. Lance Bowman was in attendance at the meeting for a College Course to observe government meetings.

STAFF REPORTS:

Steve Gibson reviewed all of the staff reports for the Planning Commission.

Planning Director/Engineer report was presented.

- In addition to the report, the Planning Commission discussed the following topics:
 - O Discussion on continued development at the Mountain Top Restaurant in Gallagher Township. The Planning Board wanted to bring several possible building code violations to the attention of the Township Supervisors. It would be the Supervisors responsibility to have a code enforcement officer visit the site, or to report violations to PA Labor and Industry.
 - O Steve Gibson will contact the Township at the direction of the Planning Commission.

Community Planner/Zoning Officer report was presented. No comments were received.

Grants Administrator Report was presented. No comments were received.

Grants Coordinator Report was presented. No comments were received.

OLD BUSINESS:

- Discussed the potential zoning violations at the Mountain Top Restaurant in Gallagher Township.
 - A Zoning Notice of Violation has been prepared and will be submitted to the

property owner. The neighboring property owners have contacted the County to report that customers are parking in an unattached grass lot adjacent to the Carrier Road. This parcel is zoned Residential and parking is prohibited, unless permission is granted by the Zoning Hearing Board.

 A second letter has been drafted to address the deficiencies that have not been addressed since Mr. Breon attended the September Planning Commission Meeting.

NEW BUSINESS

Wawa Food Market 8231 – Bald Eagle Township

- Planning Director reviewed the plans and attached plan review with the Planning Commission. Roger Hoy moved, and Ryan Graw seconded, that a favorable review letter be sent to Bald Eagle Township, with the review comments. Motion passed.
- Add comments about fill at the site.

Quaker Hill Solar Project - Wayne Township

- Planning Director reviewed the plans and the attached plan review with the Planning Commission. Melvin Coakley moved, and Reza Lofti seconded, that a favorable review letter be sent to Wayne Township, with the review comments. Motion passed.
- Dave Calhoun abstained from the vote.

Sugar Valley Produce Auction – Greene Township

• Planning Director reviewed the plans and the attached plan review with the Planning Commission. Roger Hoy moved, and Dave Calhoun seconded, that a favorable review letter be sent to Greene Township, with the review comments. Motion passed.

Dave Calhoun gave a report on the Rutters Store proposed in Wayne Township. The Rutters has been through the Zoning Hearing Board and the zoning has been approved. Land Development will follow.

OTHER BUSINESS

- Clinton County Comprehensive Plan.
 - o The Planning Director provided an update on the 2024 Comprehensive Plan.
 - While in attendance at the Pennsylvania Planning Directors quarterly meeting, Steve Gibson discussed the preparation of the 2024 Comprehensive Plan. Representatives from DCED and other Planners highly recommended hiring a consultant to do this work because it is so time consuming.
 - Steve G contacted DCED to have a pre-application meeting for a Municipal Assistance Grant (MAP) for the comp plan. DCED indicated that the grant application for a comprehensive plan is fundable and would be awarded in early 2024. The grant is 50% match, with 50% of that match allowed to be done as force account labor, with minimal cost to the County.
 - o The County Planning Department will solicit quotes from the planning agencies for the work, but will continue to work on the outline of the plan.
 - A motion was made by Dave Calhoun to support pursuit of a grant for the Comprehensive Plan. The motion was seconded by Melvin Coakley. Unanimously passed.
- There was discussion about the drought situation for the region and its impacts to the drinking

water system for most of Clinton County's residents. Mr. Calhoun provided an update on what Wayne Township has been notified of in association with the well construction on McKinney Road.

CORRESPONDENCE: Presented the correspondence from the previous month. There were no comments.

ADJOURNMENT

• Melvin Coakley made, and Ryan Gran seconded, a motion to adjourn at 8:05 PM. All were in favor and the motion carried.

Wayne Township Planning Commission Wayne Township Supervisors P.O. Box 217 McElhattan, PA 17748

RE: Quaker Hill Solar Project Wayne Township, Clinton County, Pennsylvania

Dear Planning Commission and Supervisors

The Clinton County Planning Commission met during their regular legislative meeting of November 21, 2023 to review the plan entitled Final Land Development and Lot Consolidation Plan, Quaker Hill Solar Project, Wayne Township, Clinton County, Pennsylvania, Project Number 10P3-23-6.10, Rev 0, prepared by Mid Penn Engineering. The project received favorable reviews, and the Planning Commission recommends approval of the project upon resolution of the following items:

- 1. For the purposes of recording, we recommend that two separate plans be submitted. One for the lot consolidation, and one of the land development.
- 2. The title of the project indicates that it is a "Final Land Development Plan". These plans are either Preliminarily approved, with a final as-built Final plan at the end of construction, OR the plans are Preliminary/Final with a site development bond to be provided. The current plan name is not recommended.
- 3. The site is located just outside of the 100 year floodplain. There should be no issues with flooding. The Township Storwmater Reviewer should consider issues associated with functional infiltration systems during lesser frequency storms.
- 4. PennDOT one map indicates that the access road and infiltration trench #2 pass through a Forested Wetland. Recommend that a wetland delineation be performed prior to approval. A statement about NWI wetlands, as presented on the plan, may not be acceptable to PADEP or the Conservation District.

- 5. The site is not located on prime Agricultural farmland.
- 6. For the lot consolidation and land development plan, need to indicate the source of water and sewer. If there is a non-building waiver, then provide the waiver.
- 7. There is a structure called PS-1 on the plan. There is no detail of this structure. Recommend providing details.
- 8. Recommend that the developer provide the required bonds for the site development.
- 9. A decommissioning bond in the amount of \$242,200.00 is being proposed by the developer for when the site stops producing electricity. This bond should be reviewed by the Township Engineer to assure it will cover site closure.
- 10. Recommend a full technical review of the PCSM, lot consolidation and land development plan by the Township Engineer.

Should the Township have any questions about this review, please do not hesitate to contact my office at 570-893-4080 or via email at sgibson@clintoncountypa.gov.

Sincerely,

CLINTON COUNTY, PENNSYLVANIA

Stephen P. Gibson, P.E. Director of Planning

County Engineer

November 22, 2023

Marissa M. Morgan, Secretary Bald Eagle Township Planning Commission 12 Fairpoint Road Mill Hall, PA 17745

RE: Wawa Food Market 8231 Bald Eagle Township, Clinton County, Pennsylvania

Dear Ms. Morgan and Planning Commission:

The Clinton County Planning Commission met during their regular legislative meeting of November 21, 2023 to review the plan entitled Preliminary/Final Land Development Plans Provco Pinegood Mill Hall, LLC Wawa Food Market 8231, dated October 23, 2023, prepared by Bohler Engineering. The project received favorable reviews, and the Planning Commission recommends approval of the project upon resolution of the following items:

- 1. Approval could be conditional upon acquisition all permits (102, 105/404), technical review by the Township Engineer, and meeting the requirements of the zoning ordinance and the flood plain ordinance.
- 2. Recommend detailed review of the Bald Eagle Township Flood Plain Ordinance with regard to filling in the flood fringe. Typically the designer must provide evidence that the fill in the flood fringe will not affect the 100 year flood elevation.
- 3. Plans indicate the site drains to Bald Eagle Creek. The site actually drains to Fishing Creek, which has a standalone Act 167 plan associated with the Fishing Creek Watershed. Act 167 Plans may affect the type of permit applications prepared for the Conservation District and PADEP.
- 4. The County Engineering Office did not perform a full technical review of the PCSM. General review of the stormwater plan indicates that TP-2 and TP-5 both show evidence of shallow groundwater, possibly making infiltration impossible. TP-5 indicated an

November 22, 2023 Page 2

infiltration rate of zero. The project proposes the Managed Release Method for stormwater, which is typically acceptable when soil conditions or shallow groundwater do not allow infiltration. Without utilization of this method, the basins will likely hold water all the time.

- 5. The stormwater inlets/structures that discharge to the basins do not have shut offs, or methods to prevent fuel spills from entering the stormwater basins. The basins, where there is infiltration capacity, are forcing infiltration of stormwater, which means fuel spills will enter the Fishing Creek water table or the creek itself. For the basin with zero infiltration rate, fuel spills or other contamination could migrate directly into Fishing Creek. The planning commission recommends the design engineer provide a way to contain spills prior to entering the basins.
- 6. Lastly, the planning commission recommends a full technical review by the Township Engineer prior to final approvals.

Should the Township have any questions about this review, please do not hesitate to contact my office at 570-893-4080 or via email at sgibson@clintoncountypa.gov.

Sincerely,

CLINTON COUNTY, PENNSYLVANIA

CLINTON COUNTY PLANNING COMMISSION – REVIEW REPORT

DATE 11/21/23

PROJECT NAME Sugar Valley Produce Auction - Greene Township

PROJECT DESCRIPTION 4,916 square foot building addition.

Produce Auction

LOT SIZE 4 acres NEW IMPERVIOUS Building expansion beyond parking lot

PUBLIC WATER well PUBLIC SEWER on lot FLOOD PLAIN NO

MUNICIPALITY Greene ZONING DISTRICT Agricultural

SETBACKS FRONT 50' REAR 40' SIDE 20'

BUILDING HEIGHT

MAXIMUM IMPERVIOUS

BUFFER ZONE REQUIREMENTS

NPDES PERMIT NO 105 PERMIT NO HIGHWAY OCCUPANCY NO

STORMWATER MANAGEMENT REQUIRED Township Review

COMMENTS:

- An approximate 5000 square foot building addition to the existing 24,000 square ft produce auction in Greene Township, located on SR 477.
- The plan was a very simple 1 page site geometry plan. The County checklist requires the following:
 - Title block, indicating preliminary or final LD plan.
 - Municipality, county and state
 - Existing site plan
 - Water courses, flood plains, wetlands, utilities should be shown.
 - Proposed grading plan should be shown.
 - Recommend a parking lot plan, with traffic flow, walkways, ADA compliant parking.
 - Information on the building addition. Finished floor elevation, building height, building profile.
 - Waste disposal areas.
 - Lighting plan.
 - Sanitary sewer system.
 - o Stormwater system.
- Approval by the Township should only be granted after technical review by the Township Engineer.

EXHIBIT 2 STAFF REPORTS

STAFF REPORTS

January 2024 Steve Gibson, Planning Director/Engineer

- Planning Department hosted a training by Wes Farringer, our DCNR Rep. It
 was a 2 hour training here at the Piper Building on grant applications for
 trails and parks. All municipalities were invited. Approximately 30 people
 attended.
- Assisting with County Capital Projects, such as the trails, HVAC for Piper and the Court House, and 911 Project.
- Assisting the Housing Authority with approvals on the Hope Mitchell House.
- Working with the County Redevelopment Authority on their Blight Action Plan and Land Banking Proposal.
- Continued to work on the 2024 Comprehensive Plan.
- Assisting Chestnut Grove with the Robbie Gould Youth Sports Park.
- General planning and engineering consultation with the County and Municipalities.

BEVT 3 – Design Phase

- Working on land acquisition issues with the Commissioners.
- Working with the original engineering firm on restarting the project.
- Preparing a RACP Grant for construction of the entire alignment.

BEVT 5 – Design

- Final design is complete. Final design scoping meeting is upcoming.
- Pine Creek Township is requiring additional hydraulic studies to meeting their ordinance requirements. Bidding will be delayed.

BEVT 6 – Funding Acquisition

Received a grant from DCNR for the full amount requested.

911 Tower Project

- The commissioners have executed a contract with Motorola for approximately \$10,194,000.00.
- Working on tower lease acquisition for space on existing telecom towers to provide better coverage.

Land Development Projects

Since the November PC Meeting, the following projects are in different phases of consultation for Land Development.

- Mountain Top working with solicitor on outlining a corrective action plan.
 Will be meeting directly with the Owner in January.
- Take 5 may have to relocate a water main on the property.
- Edwards Storage Facility Bald Eagle's engineer is performing technical review. Waiting on signed plans from the Township.
- Wawa Under review. Not recorded.
- Wayne Solar Farm Under review. Not recorded.
- Rutters in Wayne Township next to Restless Oaks. Currently going through zoning hearings for land use. LD Plans have not been received.
- Leidy Compressor preliminary plans for a new office building and parking lot. LD plans have not been received.

Property Subdivision

Received and reviewed 11 minor subdivisions of property. Primarily single lot subdivisions or lot consolidations of private property for residential use.

- Minor in Woodward x 1
- Minor in Greene Township x 1
- Minor in Wayne Township x 1
- Minor in Logan Township x 2
- Minor in Lock Haven x 1
- Minor in Lamar x 1
- Minor in Pine Creek x 1
- Minor in Porter Township x 1
- Minor in Chapman Township x 1
- Minor in Bald Eagle Township x 1

Zoning Officer's Report

Final Zoning Permit Totals for 2023

- Colebrook 3
- East Keating 6
- Gallagher 10
- Grugan 4
- Logan 16
- Noyes 6
- West Keating 6

There was a total of 48 zoning permits issued for 2023 which was only two more from 2022's total count and there was a total improvement value of \$3,442,200.00 for the year on the respective projects. Of the 48 permits, there were only four permits issues for permanent residences and the rest being either camps/recreational cabins or improvements to existing structures.

Zoning Variance Request-Logan Township

- The Planning Office had received a call from Jeff Krieger about a property in Logan Township where a trailer had been placed with no septic plan or permitting from him, which also indicated that there was no zoning permit.
- The property at 1439 Greenburr Gap Road, Logan Township is a 1.09-acre parcel and is zoned for "Woodland Conservation." While it is already an existing lot, the former trailer that was on the property was removed, making this new trailer new development. In the "Woodland Conservation District" there is a 10-acre minimum lot size requirement for single family residences so the new trailer would not fall into compliance for the lot size.
- The landowners were advised they could request a variance to challenge the lot size requirement, and have done so submitting the request form and paying the fee.
- The Clinton County Zoning Hearing Board will meet on 2/7/2024 at 6:00PM at the Piper Building on the second floor (Commissioners Meeting Room) to make a ruling on the matter.

Zoning Hearing Board Vacancies

- We are currently seeking two alternatives for the Clinton County Zoning Hearing Board.
- If you are interested or know of anyone that would be interested in this position, please send a letter of interest to the Clinton County Planning Office. The meetings are only as needed as special use or variance requests are submitted.

Community Planner

Bald Eagle Valley Trail

- The Bald Eagle Valley Trail saw little constructional development in 2023, but it saw much more use with the opening of Katie's Crossing. SEDA-Cog had provide several trail counters in the completed sections in Castanea and Wayne Townships which gave us some better insight to just how many bike riders and hikers were utilizing the trail on a daily basis.
- On a daily average, for all sections where counters were placed, the trail saw approximately 37 users per day. The Spook Hollow Road Section (Which leads to Katie's Crossing) saw the most use as it averaged 52 users on a daily basis.
- We look for this trend to continue upward with the completion of phases 5 and 6 this upcoming fall.

Clinton County Recreation Advisory Committee

- The Clinton County Recreation Advisory Committee had a huge part in several big events this summer such as the Ironman Triathlon Race, the 2023 Canoe and Kayak National Championships, and the Endless Mountains Adventure Race.
- For all three events, the members offered help by volunteering their time to help run and coordinate the races which spanned for several days and a vast area in Clinton County.
- The committee also went through a major reorganization which featured setting term limits for the respective members and revamping the bylaws of the committee.
- Currently there are two vacancies for the Clinton County Recreation Advisory Committee and we are accepting interest letters to fill the seats which are both one-year terms.
- There are several projects in the works for the year such as the Susquehanna River Campsite/River Trail system, The Beech Creek Boulder Park, and the Lockport Fish Ladder project which the group is creating "sub-committees" to offer aid to help with the completion of the projects.

Live and Work Relocation Program

- The Live and Work Relocation Program is now entering into its second year and it has seen some tremendous results in bringing new residents to Clinton County.
- In total, the program has brought 54 new residents to the county, with a majority relocating the
 City of Lock Haven. Commonwealth University is the top employer of the applicants but there is
 also very dynamic range and it features some of our industrial employers such as Avery
 Dennison and Croda, and some of the smaller businesses in the county such as Embellish Salon
 in Lock Haven.
- We are currently still taking applicants and will continue to run the program to continue bringing productive working people to Clinton County.

Stephen Gibson - B&B Rentals - Medical & Dental Offices

From: Stephen Gibson

To: cwalker@lockhavenpa.gov; Abigail Roberts <aroberts@LOCKHAVENPA.GOV>

Date: 12/28/2023 5:04 PM

Subject: B&B Rentals - Medical & Dental Offices

Cc: Ryan Frenya; christopher stein; Colton Zimmerman; tmurty1@gmail.com

Cyndi/Abbey,

The County Planning Office received a land development package from Penncore for the B&B medical and dental facility on Bellefonte Ave. Unfortunately, we can't get a quorum to reorganize the PC and discuss the plan before the City's Planning Commission Meeting. That said, "official" comments will be prepared after the January 16th meeting.

In the interim, I have had time to review the plans (unofficially) with Terry Murty, the chairman of the Planning Commission. Here are our unofficial comments for consideration by the City:

- 1. Recommend providing a site development bond, in accordance with the MPC, considering impacts to City owned streets and sidewalks.
- 2. Change the title from Final to "Preliminary" or "Preliminary/Final Subdivision and Land Development plans". Final land development plans can only be submitted after construction is over.
- 3. Remove the county review title block, leave it as an empty rectangle. We use ink stamps.
- 4. Correct all property owner labels (names, DB/PG, etc.) on the existing site plan and the subdivision/lot consolidation plan. They show the old property owners and old deed references. The tax parcel ID's are correct.
- 5. Depict all public right of ways widths and ownership of RWs. For example, differentiate between the PennDOT RW and the City Alley.
- 6. The ADA parking lot is currently blocked by PPL poles and guy wires. Will have to work with PPL on pole relocation.
- 7. Is PennDOT OK with sheetflow onto the public RW from the main parking lot? Previously, there was a lot of impervious roof space that discharged to the alley and the state roadway. Sometimes PennDOT would like to see any possible changes in drainage patterns.
- 8. Coordinate more with the City Water Dept. Looks like there might be a water line conflict with the proposed stormwater system in the alley.
- 9. Are they proposing to pave the alley? There's a detail on alley and PennDOT paving, but no cost associated, nor any hatching showing this work.
- 10. Recommend adding a crosswalk detail.
- 11. Recommend ADA curb cut details at the alley, with required trunkated dome markings. Provide a detail for the sidewalks curb cuts.
- 12. Technical review by the City Engineer. I read Penncore's stormwater collection analysis in Hydraflow and there should be no issues with the new 12 inch stormwater pipe capacity. I don't know the condition of the stomrwater system downstream from the site, but we'll let the City Engineer worry about that.
- 13. Can we see an architectural building detail? Heights? Frontage? Will it match some of the older brick facades of the downtown?

14. Clarify the areas that will be green space. My black and white plans don't show this and its not listed in the Legend. We assume the green hatch on the PDF plans will be green space, such as grass or planting beds.

Other than the very minor items listed above, I don't see the County PC having many additional comments for consideration by the City. If I had to guess, this project would receive favorable review for the reasons listed below.

My recollection of the previous furniture store and town tavern buildings is that they were kind of run down, abutted the sidewalk and had 100% impervious coverage. This proposal adds green space to the area and will fit well with the Commercial use of the property that should improve the downtown area. The proposal of offstreet parking for patients is a great addition as well.

Please let us know if you have any questions on these comments. We'll get you an official letter after the 16th.

Thanks, Steve

CLINTON COUNTY PLANNING COMMISSION – REVIEW REPORT

DATE 1/16/24

PROJECT NAME Nittany Minute Mart Woodward Township

PROJECT DESCRIPTION New convenience store in Woodward Township

LOT SIZE 4 acres

NEW IMPERVIOUS about 4 acres

PUBLIC WATER PUBLIC PUBLIC SEWER PUBLIC SEWER FLOOD PLAIN NO

MUNICIPALITY Woodward ZONING DISTRICT Commercial

SETBACKS FRONT 5 REAR 5 SIDE 5

BUILDING HEIGHT max 35 ft

MAXIMUM IMPERVIOUS

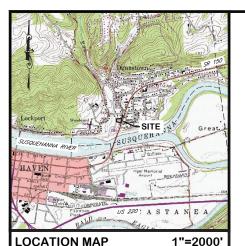

BUFFER ZONE REQUIREMENTS

NPDES PERMIT YES 105 PERMIT NO HIGHWAY OCCUPANCY YES

STORMWATER MANAGEMENT REQUIRED YES

COMMENTS:

- Cannot be a final land development plan. Rename to Preliminary/Final or Preliminary. If the plan is a Preliminary/Final, a site development bond is required.
- Recommend Highway Occupancy Permit information on the cover sheet, including permit numbers, AADT, etc. for the facility.
- The applicant is not the same as the property owner. Is there going to be a property sale? Or rental agreement? Recommend reviewing this document prior to approval.
- Why is energy transfer on the utility list?
- The stormwater maintenance/ownership notes should be with the stormwater plans. This will make NPDES Permit termination cleaner.
- The development will encroach onto the property of the car wash. Will need to provide right of way/easements for traffic.
- Note the pedestrian crossing that will be constructed with this project.
- Recommend an evaluation of additional truck turning movements for the diesel pumps. Trucks using the pump closer to the building may have conflicts with parking spaces.
- Will the Nittany Mart on the other side of the street remain in service?
- Is there a business sign? What will it look like?
- The county was not provided a copy of the stormwater narrative. The project proposes a Brentwood Industries subsurface storage facility. Recommend a technical review by the Township Engineer.
- Recommend depiction of storm conveyance system profiles. Subsurface systems can become surcharged with flow.
- Recommend some kind of emergency closure on the outfall weir in the event of a diesel or gasoline fuel spill.

FINAL LAND DEVELOPMENT PLAN **FOR NITTANY MINITMART - DUNNSTOWN**

WOODWARD TOWNSHIP, CLINTON COUNTY, PENNSYLVANIA

GENERAL SITE INFORMATION: TAX PARCEL NUMBER: LESSEE: OWNER OF RECORD: OWNER ADDRESS: ZONING: C - COMMERCIAL DISTRICT PROPOSED USE: CONVENIENCE STORE PUBLIC SEWAGE DISPOSAL: WOODWARD TOWNSHIP MUNICIPAL AUTHORITY PUBLIC WATER: SUBURBAN LOCK HAVEN WATER AUTHORITY BUILDING HEIGHT: MAXIMUM BUILDING HEIGHT: 35 PARKING SETBACKS: FRONT: 5' FROM STREET RIGHT-OF-WAY

SITE DATA:

- 12. BOUNDARY AND TOPOGRAPHY IS BASED OFF A PROPERTY SURVEY CONDUCTED BY HAWBAKER ENGINEERING, LLC COMPLETED DURING AUGUST 2022.

- APPROXIMATE LOCATIONS OF UNDERGROUND UTILITIES ARE BASED ON VISIBLE ABOVE GROUND APPURTENANCES AND AVAILABLE MAPPING PROVIDED TO THIS OFFICE. CONTRACTOR SHALL NOTIFY THE PA ONE CALL SYSTEM (1-800-242-1776) NOT LESS THAN THREE (3) DAYS PRIOR TO CONSTRUCTION. THE ONE CALL SYSTEM WILL NOTIFY THE PUBLIC UTILITIES IN THE AREA. PUBLIC UTILITIES WILL THEN COORDINATE DIRECTLY WITH THE CONTRACTOR.
- 16. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO THOROUGHLY REVIEW THE PLAN DRAWINGS AND NOTIFY THIS OFFICE OF ANY ERRORS, OMISSIONS, AND/OR DISCREPANCIES PRIOR TO THE START OF CONSTRUCTION.
- A BUILDING PERMIT IS REQUIRED FROM THE WOODWARD TOWNSHIP PRIOR TO ANY BUILDING CONSTRUCTION.
- 18. STREET SIGNS SHALL BE HIGH INTENSITY SHEETING MOUNTED ON BREAKAWAY POSTS.

STORMWATER FACILITIES OWNERSHIP AND MAINTENANCE PROGRAM
